

## North Bay Village Memorandum

**DATE:** 6/04/20

**TO:** Mayor, Vice Mayor, and Commissioners

**FROM:** Village Manager Ralph Rosado, PhD, AICP

**SUBJECT:** Electricity to Decorative Streetlights and Kennedy Bust Restored

---

The bust of President John F. Kennedy and the decorative streetlights along Kennedy Causeway are shining brightly again.

After months of working with several electricians to pinpoint a series of electrical problems, unravel the wiring and determine the proper ownership of those wires, the failed underground electrical feed that powers the bulbs for the bust and the streetlights has been fixed. This has been one of our Public Works Department's top priorities, and we are happy to see the bust and our main thoroughfare become more welcoming sights for residents and visitors.
